- Meet ISO 2725 DIN 3124 manufacturing requirements
- High quality chromium-vanadium steel forging, thin wall design, electroplated bright chromium is not easy to rust
- High torque, middle knurled non-slip design
- Note: Manual socket is not suitable for pneumatic tools

Special arc inner Angle design increases torque by 30%, can effectively reduce nut sharp Angle wear, operation does not slip, high safety.

This product is made of high quality chromium vanadium steel, with thin, strong function.

1/2" Blue-rim 6pt Metric Socket

- Meet ISO 2725 DIN 3124 manufacturing requirements
- High quality chromium-vanadium steel forging, thin wall design, electroplated bright chromium is not easy to rust
- High torque, middle roll printing blue ribbon color design
- Note: Manual socket is not suitable for pneumatic tools

- Meet ISO 2725 DIN 3124 manufacturing requirements
- Forged high quality carbon steel, thin wall design, electroplated bright chromium
- Not easy to rust, beautiful and strong, high torque
- Top or middle knurled non-slip design
- Note: Manual socket is not suitable for pneumatic tools.

TG200232	32mm	6 /120		

- Meet ISO 2725 DIN 3124 manufacturing requirements
- Forged high quality carbon steel, thin wall design, surface sand fine nickel rust prevention
- Easy to rust, high torque, middle knurling anti-skid design.
- Note: Manual socket is not suitable for pneumatic tools.

1/2" Electrophoresis Air Impact Socket

- Meet the manufacturing requirements of DIN 3129
- High quality chromium-vanadium steel forging, hardening heat treatment with tip holes
- Surface electrophoretic anti-rust treatment, high torque, strong and durable
- It can be used as manual and pneumatic

CL204632	32mm			

- High quality chromium-vanadium steel forging, hardening heat treatment with tip holes
- Surface electrophoretic anti-rust treatment, high torque, and lengthening
- Pneumatic socket can be used for both manual and pneumatic operation

1/2" Deep Industrial Class 6pt Impac Socket

Item NO.	Size			RMB
CL204722	22mm(150mm)			

- Made of chromium-vanadium alloy steel, surface electrophoretic treatment
- High torque, high hardness, long service life

VDE 绝缘

SLEEVE SMALL KNOWLEDGE

According to the use of driving device classification:

1. Pneumatic socket (also known as impact socket)
2. Manual socket

According to the material classification:

1. Chrome-Molybdenum Steel is chromium, Mo and iron.Carbon (C) alloy, high temperature processing performance, beautiful after processing, deep quenching, good impact absorption performance, Therefore, it is commonly used in the industry to make pneumatic tools and large hand tools.
2. Chrome-Vanadium Steel. Chrome-vanadium steel is an alloy tool steel with chrome-vanadium alloy elements. It is mainly used in hand tools.
3. 45# carbon steel, that is, 45 steel, carbon content of about 0.45%, due to good processing performance and multi-directional processing workers

Art has become the most commonly used processing materials in steel.

The above materials Cr-Mo(chromium molybdenum steel) material is the best, is the best material of socket.

Purpose of the socket:

The socket is also called a socket wrench.It is mainly used in combination with pneumatic wrench, manual wrench and hydraulic wrench to tighten or loosen screws or nuts. It is widely used in automobile maintenance, electric power, mining and other machine repair and detection and assembly.Changlu socket sales in the forefront.

Item NO.	Size	L(mm)	⌀W(mm)	⌀D(mm)			RMB
Cl301416	16"(400mm)	400	200	30	8	3.88	

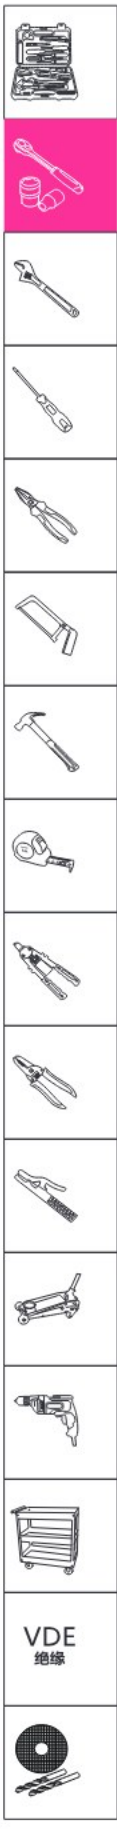
- Forged with 40Cr, high torque, good hardness and toughness
- Used for removing and fastening heavy screws and nuts and maintenance of vehicles and equipment
- Used for fast disassembly and installation of nuts, and can turn quickly

1/2" Electroplated Shaking Handle

DIN ISO

Item NO.	Size	L(mm)	⌀D1(mm)	⌀D2(mm)			RMB
CL302204	20"(500mm)	500	18	12.5	50		

- Made of forged high carbon steel with surface electrophoretic anti-rust treatment
- Used for fitting socket removal, fastening bolts and nuts, and vehicle and equipment maintenance
- Human mechanics design, using the bow shank to quickly and continuously rotate the fastening screw



1/2" Combination Extension Bar

Item NO.	Size	L(mm)	⌀D(mm)	⌀H(mm)			RMB
CL300210	10"(250mm)	250	22.5	16	50	1.6	

- Made of chrome-vanadium steel forging, polished chrome-plated mirror anti-rust treatment
- Used for fitting socket removal, fastening screw, nut and vehicle and equipment maintenance.
- Can be used as a extension bar or T slide bar

1/2" Sliding Bar

Item NO.	Size	L(mm)	A(mm)			RMB
CL301712	12"(300mm)	300	13.5	50	0.41	

- It is forged with chromium-vanadium steel, and the surface of the conversion sliding joint is black and rust resistant
- Used for fitting socket removal, fastening screw, nut and vehicle and equipment maintenance.
- The two ends of the connecting rod are equipped with locking steel balls to prevent the mortise from falling off
- Can be used as a extension bar or T slide bar

3/4"	CL301802	20"(500mm)	500	15		

- It is forged with chrome-vanadium steel, and its surface is polished with chrome-plated anti-rust treatment
- Used for fitting socket removal, fastening screw, nut and vehicle and equipment maintenance.
- The two ends of the connecting rod are equipped with locking steel balls to prevent the mortise from falling off
- Can be used as a extension bar or T slide bar

3/4" Electrophoresis Sliding Bar

Item NO.	Size	L(mm)	A(mm)			RMB
CL301803	20"(500mm)	500	22.50	15	1.71	

- It is forged with chrome-vanadium steel and its surface is treated with electrophoretic antirust
- Used for fitting socket removal, fastening screw, nut and vehicle and equipment maintenance
- The two ends of the connecting rod are equipped with locking steel balls to prevent the mortise from falling off
- Can be used as a extension bar or T slide bar

Mat Finish Sliding Bar

TYPE	Item NO.	Size	L(mm)	A(mm)			RMB
1/2"	CL301703	10"(250mm)	250	16.00	40		
3/4"	CL301801	20"(500mm)	500	22.50	15	1.72	
1"	CL301820	20"(500mm)	500	22.50	10	1.87	

- It is forged with chrome-vanadium steel, and its surface is polished with chrome-plated anti-rust treatment
- Used for fitting socket removal, fastening screw, nut and vehicle and equipment maintenance.
- The two ends of the connecting rod are equipped with locking steel balls to prevent the mortise from falling off
- Can be used as a extension bar or T slide bar

3/4" Adding Force Bar

TYPE	Item NO.	Size	L(mm)	A(mm)			RMB
Matte	CL302101	20"(500mm)	500	37	18	1.63	
Electrophoresis	CL302102	20"(500mm)	500	38	20	1.63	

- It is forged with chrome-vanadium steel and its surface is treated with anti-rust
- Used for fitting socket removal, fastening screw, nut and vehicle and equipment maintenance

Full Polished "F" Bar

TYPE	Item NO.	Size	L(mm)	A(mm)	øB(mm)			RMB
1/2"	CL302010	10"(250mm)	250	28	20	40	0.52	
	CL302015	15"(375mm)	375	29	20	30	0.72	
	CL302018	18"(450mm)	450	32	17	20	0.87	
3/4"	CL302020	20"(500mm)	500	42	24	20	1.87	

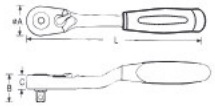
- Made of chrome-vanadium steel, handle knurled anti-slip design, high t orque standard, with ball lock
- Used with the socket, for removing and fastening heavy screws, nuts and maintenance of vehicles and equipment

1/4" Square Extension Bar

Item NO.	Size			RMB
CL300801	1/4"	255	0.09	

- The square rod is forged with chrome-vanadium steel, hardened by heat treatment, and chrome-plated to prevent rust
- Used for connecting 1/4" square rod and socket, used for general small torque fastening bolts

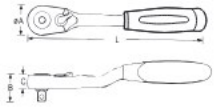
Mirror Finish Quick Release Ratchet Wrench



Item NO.	Size	B(mm)	C(mm)	L(mm)	A(mm)			RMB
CL302701	1/2"	38	27	260	43	5/40	0.63	
CL302702	3/8"	31	16	210	33	8/40	0.32	
CL302703	1/4"	24	12	160	26	10/50	0.17	

- Made of high quality chrome-vanadium steel, with locking and quick release ratchet head functions
- The inner structure of ratchet has 72 teeth, and the bolts or nuts can be wrenched at a 5-degree rotation Angle
- The handle part of the wrench is designed according to human body function, with two-color injection molding, making it comfortable to hold and pinch
- With forward and reverse commutation mechanism, square tenon high torque output, more than 50% DIN

Mirror Finish Quick Release Ratchet Wrench (Bent Handle)



Item NO.	Size	B(mm)	C(mm)	L(mm)	A(mm)			RMB
CL305601	1/2"	41	21	260	41	5/25	0.61

CL305603	1/4"	25	13	160	28	10/50	0.18	

- Made of high quality chrome-vanadium steel, with locking and quick release ratchet head functions
- The handle part of the wrench is designed according to human body function, with two-color injection molding, making it comfortable to hold and pinch
- With forward and reverse reversing mechanism, high torque output of square rod, exceeding 50% ANSI

VDE
绝缘

Full Polished Double Oval Type Ratchet Handle

Item NO.	Size			RMB
CL302711	1/2"		0.63	

- Made of high quality chrome-vanadium steel, with locking and quick release ratchet head functions
- The ratchet internal dial adopts the horn principle, which has the characteristics of long service life
- The handle part of the wrench is designed according to human body function, with two-color injection molding, making it comfortable to hold and pinch
- With forward and reverse commutation mechanism, square tenon high torque output, more than 50% DIN

Full Polished Ratchet Handle

Item NO.	Size	B(mm)	C(mm)	L(mm)	A(mm)			RMB
CL303001	1/2"	39	20	260	39	6/36	0.49	
CL303002	3/8"	37	17	210	36	6/48	0.31	
CL303003	1/4"	28	14	160	21	12/120	0.15	

- Made of high quality chrome-vanadium steel, mirror polished chrome plated, 36-tooth ratchet inner mechanism
- With forward and reverse reversing mechanism, high torque output of square tenon, used with socket
- Plastic handle, comfortable to feel, designed according to human body function

1/2" Mirror Retractable Ratchet Wrench

Item NO.	Size			RMB
CL305701	1/2"	1/20	1.00	

- This product is made of high-quality chromium-vanadium steel with 72-tooth ratchet and 1 tooth with 5 degrees rotation
- The adjustable length is 140mm, and the adjustable section is divided into 5 sections, each 27mm long
- The handle part of the wrench is designed according to human body function, with two-color injection molding, making it comfortable to hold and pinch
- With forward and reverse commutation mechanism, square tenon high torque output, more than 50% DIN

Mirror embossed handle ratchet wrench

Item NO.	Size	B(mm)	C(mm)	L(mm)	A(mm)			RMB
CL303201	1/2"	38	20	250	41	8/48	0.52	

- Made of high quality chromium-vanadium steel, mirror polished chrome plated
- With forward and reverse reversing mechanism, high torque output of square tenon
- Embossed handle to prevent slipping, designed according to human body function

Mirror Short Handle Quick Release Ratchet Wrench

Item NO.	Size	B(mm)	C(mm)	L(mm)	A(mm)			RMB
CL302821	1/2"	40	21	200	42	6/36	0.52	

- Made of high quality chrome-vanadium steel, with quick release ratchet head function
- The handle part of the wrench is designed according to human body function, with two-color injection molding, making it comfortable to hold and pinch
- With forward and reverse commutation mechanism, square tenon high torque output, more than 50% DIN
- This section is designed with short handle, suitable for working in narrow space. 72-tooth ratchet is used to save labor

Spiky Trail Ratchet Handle

Item NO.	Size	A(mm)	B(mm)	W(mm)	H(mm)			RMB
CL304000	14X17	360	20	52	55	2/40	0.51	
CL304001	17X19	360	20	52	55	2/40	0.45	
CL304003	19X22	360	20	52	55	2/40	0.75	
CL304005	22X24	360	20	52	55	2/32	0.71	
CL304006	24X27	360	20	52	55	2/32	0.49	

- Made of high quality chromium-vanadium steel, with phosphating anti-rust treatment
- With forward and reverse two-way switching ratchet function, applied to bridge construction
- Building template fastening bolts and nuts, the tip end is used as a crowbar
- Unique industrial strong torque design for heavy duty operations

Full Polished Spiky Trail Ratchet Handle

Item NO.	Size	A(mm)	B(mm)	W(mm)	H(mm)			RMB
CL304007	19X22	310	18	43	50	10/40		

- Made of high quality chrome-vanadium steel, with polished chrome-plated anti-rust treatment
- With forward and reverse two-way switching ratchet function, applied to bridge construction
- Building template fastening bolts and nuts, the tip end can be used as a crowbar

3/4" Mirror Retractable Ratchet Wrench

Item NO.	Size			RMB
CL305702	3/4"		3.49	

- This product is made of high-quality chromium-vanadium steel
- Adjustable length, adjustable section is divided into 5 sections
- The handle part of the wrench is designed according to human body function, making it comfortable to hold and pinch
- With forward and reverse commutation mechanism, square tenon high torque output, more than 50% DIN

3/4" Full Polished /mat Finish Heavy Ratchet Handle

Item NO.	Size	B(mm)	C(mm)	L(mm)	A(mm)			RMB
CL303719	Mirror finish	58	26	490	70	12	2.03	
CL303720	Matte finish	58	26	490	70	10	2.11	

- Made of high quality chromium-vanadium steel, mirror polished chrome plated
- With forward and reverse reversing mechanism, high torque output of square tenon
- Embossed handle to prevent slipping, designed according to human body function

1" Mirror Ratchet Wrench

Item NO.	Size			RMB
CL303931	1"			

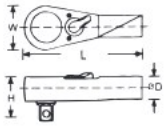
- Made of high quality chromium-vanadium steel, mirror polished chrome plated
- With forward and reverse reversing mechanism, high torque output of square tenon
- Embossed handle to prevent slipping, designed according to human body function

3/4" Series Mirror Quick Release Ratchet Wrench (Solid Bar)

Item NO.	Size			RMB
CL303921	3/4"	6		

- Taiwan chromo material cold heading forming, mirror polished chrome plating
- With forward and reverse reversing mechanism, high torque output of square tenon
- 24-tooth ratchet head, integral heat treatment, beautiful and durable
- Applied to heavy vehicle and machinery maintenance

3/4" Heavy Ratchet Head

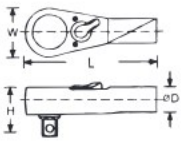


Item NO.	Size	H(mm)	L(mm)	W(mm)	D(mm)			RMB
CL303904	MIRROR FINISH	48	150	63	37	25		

- Made of high quality chromium-vanadium steel, mirror polished chrome plated
- With forward and reverse reversing mechanism, high torque output of square tenon
- 24-tooth ratchet head, integral heat treatment, beautiful and durable
- Applied to heavy vehicle and machinery maintenance

VDE
绝缘

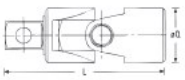
3/4" Heavy Ratchet Head



Item NO.	Size	H(mm)	L(mm)	W(mm)	D(mm)			RMB
CL303901	MATTE FINISH	48	150	63	37	25		

- Made of high quality chrome-vanadium steel, sandblasted and anti-rust surface
- With forward and reverse reversing mechanism, high torque output of square tenon
- 24-tooth ratchet head, integral heat treatment, beautiful and durable

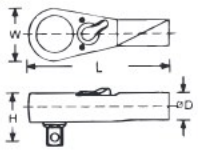
Universal Joint



Item NO.	Size	L(mm)	Q(mm)			RMB
CL303802	1/4"	40	14	40/800		
CL303803	3/8"	58	18	18/360		
CL303804	1/2"	73	25	10/200		
CL303808	1/2"MATTE FINISH	73	25	10/200		

- Forged with 50BV30 high-quality chromium-vanadium steel, capable of 180 degree direction conversion

3/4" Heavy Ratchet Head



Item NO.	Size	H(mm)	L(mm)	W(mm)	D(mm)			RMB
CL303905	ELECTROPHORESIS	48	150	63	37	25		

- Made of high-quality chromium-vanadium steel, with blackened surface and anti-rust treatment
- With forward and reverse reversing mechanism, high torque output of square tenon
- 24-tooth ratchet head, integral heat treatment, beautiful and durable
- Applied to heavy vehicle and machinery maintenance

3/4"Heavy Mirror Universal Joint

Item NO.	Size			RMB
CL303811	3/4"			

- Made of high quality chromium-molybdenum alloy steel, special heat treatment, pneumatic use
- Capable of 180 degree direction conversion

Air Universal Joint

Item NO.	Size			RMB
CL303805	1/2"	70		
CL303812	3/4"			

- Made of high quality chromium-molybdenum alloy steel, special heat treatment, pneumatic use
- Capable of 180 degree direction conversion

Level Pneumatic Universal Joint

Item NO.	Size	Length	Aperture	Joint			RMB
CL303821	1/2"	65mm	12.8mm	12.5mm	100		
CL303822	3/4"	95mm	19.3mm	19mm	50		
CL303823	1"	125mm	25.4mm	25mm	20		

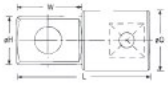
- Made of chromium molybdenum steel with a phosphated surface, it has the characteristics of high torque, impact resistance, and durability.
- The head rotates 360 degrees and has a 60 degree tapered angle, suitable for special working conditions.
- Equipped with strong buffering function, it can alleviate stress damage caused by direct force inside the universal joint.

Spark Plug Socket

Item NO.	Size			RMB
CL205214	14mm			
CL205216	16mm			

- Chromium-vanadium steel, special heat treatment, superior mechanical properties.
- Product surface is chrome plated.
- Built-in strong magnetic, can easily suck out the spark plug.
- Universal head, can be arbitrarily changed direction, suitable for small space operation.

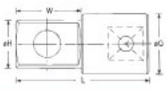
Adapter(Mirror)



Item NO.	Size	L(mm)	W(mm)	Q(mm)	H(mm)			RMB
CL202501	3/8"→1/4"	25	8	16	6.2	16/1000	0.02	
CL202601	1/2"→3/8"	25	11	22	9.4	20/300	0.05	
CL202502	1/4"→3/8"					16/320	0.02	

- Made of high-quality chromium-vanadium steel by cold forging, with square tenon outside and square hole inside
- As a socket conversion square tenon application
- From large to small, it is not in the scope of insurance

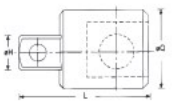
Impact Adapter



Item NO.	Size	L(mm)	W(mm)	Q(mm)	H(mm)			RMB
CL203001	1/2"→3/4"	52	20	34	19	12/96	0.25	
CL203101	3/4"→1"	62	26	50	25.3	5/40	0.48	
CL202701	3/4"→1/2"	54	16	36	12.68	12/120	0.18	
CL202801	1"→3/4"	48	22	26	19	5/40	0.43	

- Made of high quality chrome-molybdenum alloy steel, suitable for use with pneumatic tools
- The outside is a square tenon, the inside is a square hole, as a socket conversion square tenon application
- Large to small is not covered by insurance

Three Functional Connector



Item NO.	Size	L(mm)	Q(mm)	H(mm)			RMB
CL203201	3/4"→1"	78	25.2	43	350	0.44	
CL203202	3/8"→1/2"	44	12.7	24	20/400	0.07	
CL203203	1/2"→3/8"	35	9.3	22	20/400	0.07	

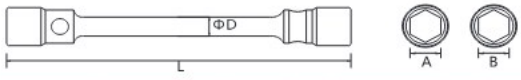
- Made of high quality chromium and vanadium steel by cold forging, with square tenon outside
- The tail end can be used with the slide rod

Quick Changeover Head

Item NO.	Size			RMB
CL306101	1/4"			
CL306102	3/8"			
CL306103	1/2"			

- Comply with DIN 3123 manufacturing requirements
- Made of high-quality chromium-vanadium steel, heat-treated with high strength and toughness
- Insert the corresponding dual-purpose ratchet, which can be converted into a ratchet wrench through this joint
- 1/4" with 10mm two-way ratchet use, and 3/8 "with 13mm two-way ratchet use
- 1/2" with 19mm bidirectional ratchet use

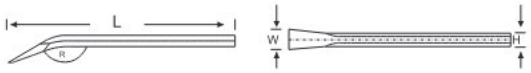
Electrophoresis Wheel Wrench



Item NO.	Size	L(mm)	A(mm)	B(mm)	D(mm)			RMB
CL304301	22x24	320	22	24	22	15		
CL304302	24x27	320	24	27	22	15		
CL304303	27x30	400	27	30	25	10		
CL304304	30X32	400	30	32	25	10		
CL304305	32X33	400	32	33	25	10		
CL304306	30X33	400	30	33	25	10		
CL304307	21X41	400	21	41	25	10		
CL304308	22X38	400	22	38	25	10		
CL304310	17X35	400	17	35	25	10		
CL304311	27X32	400	27	32	25	10		
CL304313	21X38	400	21	38	25	10		

- Made of high quality alloy steel, surface electrophoretic anti-rust treatment
- Can be used with straight rod, often used for vehicle tire disassembly and assembly

Mat Finish Crowbar



Item NO.	Size	L(mm)	W(mm)	H(mm)			RMB
CL304501	Φ19X400	400	19	20	20		
CL304508	Φ20X450	450	19	20	20		

- Made of high quality alloy steel, the surface is chrome plated and rust resistant
- Used for disassembly and assembly of tires, and used with tire wrenches

Mirror Finish Crowbar

Item NO.	Size			RMB
CL304520	12"/300	50		
CL304521	16"/400	30		
CL304522	20"/500	30		
CL304523	24"/600	20		

- Made of high quality alloy steel based on the principle of human mechanics
- Surface polishing chrome plated mirror treatment, beautiful and practical

Electrophoresis Finish Crowbar

Item NO.	Size			RMB
CL304504	Φ19X600	20		

- Made of high quality alloy steel, surface electrophoretic anti-rust treatment
- Used for disassembly and assembly of tires, and used with tire wrenches.

Crowbar

Item NO.	Size			RMB
CL304539	15"(35X6X380 mm)	6	0.65	

- Made of high quality alloy steel based on the principle of human mechanics
- The surface is sprayed with anti-rust treatment, beautiful and durable

Spraying Plastic Crowbar

Item NO.	Size			RMB
CL304503	10"/200			
CL304505	20"/500	40		
CL304506	24"/600	40		
CL304507	28"/700	50		

- Made of high quality alloy steel based on the principle of human mechanics
- The surface is sprayed with anti-rust treatment, beautiful and durable

Crowbar

Item NO.	Size			RMB
CL304535	18X400	24		
CL304536	19X600	16	1.44	
CL304537	22X800	8	2.38	
CL304538	22X1000	8	3.05	

- Forged with special tool steel and quenched
- The surface is sprayed with anti-rust treatment, which is used for installing automobile or mechanical equipment

Crowbar

Item NO.	Size			RMB
CL304531	16X450	4/16		
CL304532	18X600	4/8		
CL304533	20X1000	2/6		

- Forged with special tool steel and quenched
- Nail-shaped horn, suitable for long time workers

Multifunction Crowbar

Item NO.	Size			RMB
CL304534	S18X700	2/6		

- Forged with special alloy steel and quenched
- Adopt the principle of human mechanics, spray treatment, beautiful and durable
- There is a glue handle in the middle for easy grip and adjustment

8-in-1 Socket Wrench

Item NO.	Size			RMB
CL305108	12、13、14、15、16、17、18、19	6/36	0.56	

- 8-in-1 design, functional coverage of 12~19mm, easy to carry
- The whole high quality chromium vanadium steel forging, the whole heat treatment and equipped with strong magnet
- Anti-rust treatment of mirror electroplating surface, essential for DIY home maintenance

Cross Rim Wrench

GB Cr-V

Item NO.	Size			RMB
CL304714	14"(17X19X21X23)	12	1.20	
CL304716	16"(17X19X21X23)	12	1.38	
CL304718	18"(17X19X21X23)	12	1.49	
CL304720	20"(17X19X21X23)	12	1.67	

- Made of high quality chromium vanadium steel, special heat treatment, knurled non-slip
- Disassembly of special tire bolts and anti-rust treatment of chrome plating on mirror surface

Head Changeable Cross Rim Wrench

GB Cr-V

Item NO.	Size			RMB
CL304816	16"(17X19X21X12")	12	1.31	
CL304818	18"(17X19X21X12")	12	1.45	

- Manufactured in accordance with GB/T 14765 standard requirements
- Made of high quality chromium vanadium steel, special heat treatment, knurled non-slip
- Disassembly of special tire bolts and anti-rust treatment of chrome plating on mirror surface

VDE 绝缘

Mirror Finsh Type Cross Rim Wrench

Item NO.	Size			RMB
CL305016	16"(17X19X21X23)	12	1.44	
CL305018	18"(17X19X21X23)	12	1.56	
CL305020	20"(17X19X21X23)	12	1.74	

- Made of high quality chromium vanadium steel, special heat treatment, knurled non-slip
- Disassembly of special tire bolts and anti-rust treatment of chrome plating on mirror surface
- The intermediate reinforced iron sheet protects the welding spot fastness

Rapidly Rotating Tire Wrench

Item NO.	Size			RMB
CL305501	17X19 21X23	5/10	1.5	

- This product breaks through the traditional structure and can be split, making it more convenient to carry
- Standard 1/2" interface can be used with different specifications of socket
- Made of 50BV30 high quality chromium-vanadium steel, integral forging, heat treatment, super torque, to ensure durable products
- With a tool kit, easy to carry

Foldable Cross Rim Wrench

Item NO.	Size			RMB
CL304614	14"(17X19X21X23)	12	1.34	

- Made of high quality chromium vanadium steel, special heat treatment,foldable
- Disassembly of special tire bolts and anti-rust treatment of chrome plating on mirror surface

1/2" Series Retractable Tire Wrench

Item NO.	Size	L(mm)	W(mm)			RMB
CL304401	17X19 21X23	480	70	6/24	1.20	

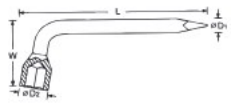
- Made of high-quality Cr-V steel;Special heat treatment
- Telescopic design, used for removing tire bolts, with rubber socket handle to apply torque comfortably and conveniently

3/4" Cross Rim Wrench

Item NO.	Size			RMB
CL304925	25"(24X27X32X34")	6	3.08	

- Made of high quality chromium vanadium steel, special heat treatment, knurled non-slip
- Disassembly of special tire bolts and anti-rust treatment of chrome plating on mirror surface

"L" Type Crow Bar Wheel Wrench



Item NO.	Size	L(mm)	W(mm)	D1(mm)	D2(mm)			RMB
CL302317	17mm	320	80	16	26	25	0.54

CL305406	20-100N.m(1/2)	10	1.33	

- Double scale, can accurately set the torque value.
- Locking ring can avoid misoperation to change the set torque value.When the set torque value is reached, a clear signal sound is issued, and a slight vibration can be felt on the handle.
- This product belongs to precision instruments!Do not use outside the torque range

1/2" Mat Finish Pointer Type Torque Wrench

Item NO.	Size			RMB
CL303530	300N.m	20	1.49	

- Chromium-vanadium steel, anti-rust treatment of mirror.Integral quenching, high hardness of the operating rod
- The pointer table is the display area of the torque value device, and the pressure torque of the handle with the jacket is comfortable
- This product belongs to precision instruments!Do not use outside the torque range

1/2" Professional Fixed-distance Type Torque Wrench

Item NO.	Size			RMB
CL303620	42-210N.m	10	2.14	
CL303630	50-250N.m	8	2.75	

- Passed the German TUV GS certification requirements and can be exported to EU countries
- Accuracy ± 3%.Long service life of seamless steel pipe body, fastening and adjusting torsion is convenient
- Used for removing and fastening spindles and tire bolts of precision machinery, it is the first choice safety tool for car safety, durable
- This product belongs to precision instruments!Do not use outside the torque range

3/ 4" Full Polished Torque Wrench

Item NO.	Size			RMB
CL303450	500N.m	12		

- Chromium-vanadium steel, anti-rust treatment of mirror.Integral quenching, high hardness of the operating rod
- The pointer table is the display area of torque value device, and the handle knurled anti-skid design
- This product belongs to precision instruments!Do not use outside the torque range

- High performance springs ensure product stability, and aluminum alloy knurled handles effectively prevent slipping.
- Pull down locking structure to adjust torque, easy to operate and use

Digital Torque Wrench

Item NO.	Size			RMB
CL305411	40-200N.M	1	2.17	

- Meet the manufacturing requirements of ASME B107.300
- Digital display torque wrench adopts digital microprocessor, which has a higher controllable accuracy of 2% than ordinary mechanical torque wrench.Can use public, British system of four different units of measurement display, conversion.(N.m.Kg.m; ibf.in; ibf.ft).
- Digital display has two options: peak hold mode and tracking mode.
  * The required torque can be preset.When the applied torque reaches the preset value, it will be preset according to the sound or light alarm.
  * The tenon is connected with a bidirectional ratchet mechanism, the tenon can be positive and counterclockwise bidirectional rotation.
- Margin of error: +/- 2%
- Connecting the mortise: 1/2"
- Display accuracy: 0.1N.m
- Use batteries: 2 No. 5 dry batteries

- Support clockwise and counterclockwise operation
- Large screen with gorgeous color LCD display
- With LED sound and light alarm function, buzzer and color frame alarm simultaneously
- 1 minute automatic brightness reduction to reduce battery loss and extend service time
- The handle is made of high-quality imported materials, with effective anti-slip and excellent grip feel
- Adopt chip overload protection, with bottom protection function, maximize the protection of wrenches and users
- A variety of unit options: N.m,Lb.ft,Lb.in,kg.cm

VDE 绝缘

Professional Adjustable Torque Wrench

Item NO.	Size	Joint			RMB
CL306221	5-25N.m	1/4"	20		
CL306222	10-60N.m	3/8"	16		
CL306223	10-110N.m	1/2"	16

CL306225	60-330N.m	1/2"	12		
CL306226	80-400N.m	1/2"	12		

- The torque wrench body is a seamless steel pipe structure, sturdy and durable, with a forward accuracy of less than ± 3% error.
- The wrench surface is treated with a special coating, which has the characteristics of anti slip and easy cleaning of oil stains. The coating is not easy to rust or peel off The handle is made of 6061 aluminum alloy material, which is anti slip, lightweight, and durable.
- The ratchet head adopts a 45 tooth paddle type quick release functional structure, with a reversing device to improve work efficiency.

Interchangeable head Preset Type Torque Wrench

Item NO.	Size		凹方Size		RMB
	N.m	Lbf.ft			
CL306501	0.5-5	2-9	9X12	0.40	
CL306502	5-25	4-19	9X12	0.45

CL306508	100-500	80-376	14X18	1.89	

- Torque wrench body is metal structure, durable, long service life.
- Accuracy: torque error value ±4%
- The torque handle is aluminum alloy knurled, which is oil-proof, anti-slip, anti-aging and durable.
- Permanent torque scale on alloy steel pipe, easy for users to read, British control.
- Each torque wrench has a unique product identification number
- Replaceable head design, torque wrench head interface sizes are 9X12 concave square head and 14X18 concave square head respectively.

Professional Adjustable Torque Wrench

Item NO.	Size	Joint			RMB
CL307201	1.5-30N.m	1/4	10

CL307207	20-400N.m	1/2	6		

- The product design and standards comply with the manufacturing requirements of ASME B107.300 electronic torque standard;
- The electronic digital torque wrench body is a seamless steel pipe structure, with a black surface and a special coating that is sturdy, anti slip, and wear-resistant easy to rust, oil stains are easy to clean.
- The core chip of electronic digital torque wrench is the latest energy-saving and efficient chip. The strain gauge adopts German HBM brand SMT, which can more efficient enough to reflect real-time dynamic torque data, with a torque accuracy of ± 2% error.
- The ratchet head adopts 45 teeth and can easily change direction by rotating the directional knob, achieving clockwise or counterclockwise operation.

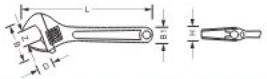
Adjustable Wrench



Item NO.	Size	L Middle length	B Head width	Z Nonconjunct	D Opening depth	H Head thickness	B1 Tail width			RMB
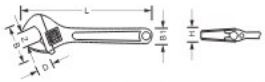
CL400215	15"	376.00	103.00	50.43	42.98	25.28	25.72	2/18	1.41	
CL400218	18"	450.00	123.00	61.38	51.35	28.21	29.08	2/12	2.08	
CL400224	24"	600.00	144.00	70.22	61.58	32.30	35.78	1/4	3.61	
CL400230	30"	778.00	176.00	91.00	78.00	33.41	36.20	1/3	5.92	

- Carbon steel forging, integral heat treatment, hardness in HRC42~46°
- Precision machining of pulling mouth, integral forging of pulling body,
- Precise calibration, exquisite worm gear, open and close freely

Pipe And Adjustable Wrench



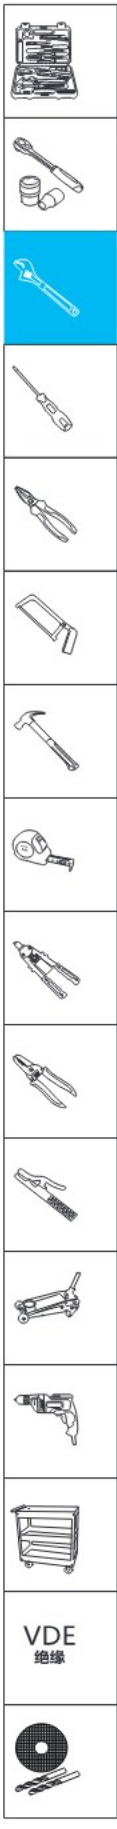
Item NO.	Size	L Middle length	B Head width	Z Nonconjunct	D Opening depth	H Head thickness	B1 Tail width			RMB
CL404908	8"	212.00	60.00	32.76	26.24	14.96	22.26	6/60	0.33	
CL404910	10"	262.00	70.00	41.48	30.71	16.44	28.15	6/48	0.49	
CL404912	12"	312.00	88.00	50.34	35.55	19.34	33.58	6/36	0.77	

- Alloy steel forging, overall heat treatment including worm gear at HRC42~46°
- The head is fine polished, the surface is chrome plated, wear-resistant and rust-resistant
- The pulling mouth is precisely machined and can also be used as pipe pliers.
  The pulling mouth is in gear shape.
- The quincunx hole with hexagonal square hole tail can be used as quincunx spanner

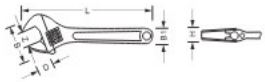
Adjustable Wrench Black Nickel Square Hole

Item NO.	Size			RMB
CL407710	10"	6/60		
CL407712	12"	6/36		

- Alloy steel forging, overall heat treatment, sturdy and durable.
- Polished head, surface coated with black nickel, wear-resistant and rust proof.
- The square hole design at the tail facilitates suspension and storage.
- Precision machining of the trigger, flexible opening, stable trigger, and high torque
- Laser precise calibration improves work efficiency



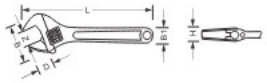
Large Opening Light Adjustable Wrench



Item NO.	Size	L Middle length	B Head width	Z	D Opening depth	H Head thickness	B1 Tail width			RMB
CL407106	6"	119.00	44.00	26.56	22.02	11.38	23.78	6/120	0.10	
CL407108	8"	145.00	55.00	31.14	31.78	12.97	27.78	6/96	0.15	
CL407110	10"	161.00	68.00	38.93	34.01	15.26	30.20	6/60	0.27	
CL407112	12"	210.00	86.00	46.72	42.34	18.25	36.30	6/36	0.47	

- Alloy steel forging, integral heat treatment, hardness in HRC42~46°
- The head is fine polished, the surface is chrome plated, wear-resistant and rust-resistant
- Precision machining of spanner, flexible opening, stable spanner and large torque
- The weight is 30% lighter than the standard wrench of the same scale, with good handle and not easy to fatigue.
- Suitable for small space, mechanical maintenance, car repair, bathroom air conditioning installation, convenient and lexible, easy to keep

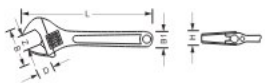
Right Angle Spanner



Item NO.	Size	L Middle length	B Head width	Z	D Opening depth	H Head thickness	B1 Tail width			RMB
CL404509	9"	238.00	65.00	64.00	36.00	16.09	18.94	5/30	0.49	
CL404511	11"	284.00	76.00	79.00	44.00	18.23	22.64	6/36	0.67	
CL404515	15"	375.00	85.00	85.00	46.00	21.57	31.12	2/12	1.55	

- Alloy steel forging, overall heat treatment including worm gear at HRC42~46°
- The head is fine polished, the surface is chrome plated, wear- resistant and rust-resistant
- The pulling mouth is precisely machined and can also be used as pipe pliers. The pulling mouth is in gear shape.
- The quincunx hole with hexagonal square hole tail can be used as quincunx spanner

Four Multi-purpose Wrench



Item NO.	Size	L Middle length	B Head width	Z	D Opening depth	H Head thickness	B1 Tail width			RMB
CL405816	16"	409.00	90.00	47.00	36.00	18.74	6.58	6/24	1.04	

- Alloy steel forging, integral heat treatment, hardness in HRC42~46°
- Precision machining of pulling mouth and integral forging of pulling body
- The head can be detachable with open wrench in front and pipe wrench in back, making it flexible and convenient to use
- The protruding part of the spanner head can be knocked
- Tail taper design, can replace the use of ordinary small crowbar

CL405327	27mm	5/60	
CL405330	30mm	5/60	
CL405332	32mm	5/60	

- Conforms to DIN 3113 ISO 3318 Type A standard
- Forged by high carbon steel, hardness HRC42~45°
- Bend the head 15° for easy fastening of dented hex bolts and nuts

- Forged with 40Cr steel, hardness HRC42~45°
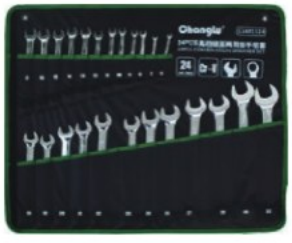
- The surface is treated with electrophoretic rust prevention
- For quick removal and fastening of hexagon bolts and nuts
- Head bend 45° to facilitate fastening and removing bolts in holes

14pcs Mirror Inch Combination Spanner Set

Item NO.	Size			RMB
CL405014	3/8、7/16、1/2、9/16、5/8、 11/16、3/4、13/16、7/8、 15/16、1、1-1/16、1-1/8、 1-1/4mm	6	3.97	

- It adopts high quality chromium-vanadium steel, the hardness is HRC42~45°
- Mirror polishing, chrome plating, rust-proof and wear-resistant treatment
- Bend the head 15° for easy fastening of dented hex bolts and nuts

24pcs Combination Spanner Set



Item NO.	Size			RMB
CL401324	6、7、8、9、10、11、12、13、14、15、 16、17、18、19、20、21、22、23、 24、26、27、28、30、32mm	4	5.66	

- Made of chromium-vanadium steel, the overall heat treatment hardness is HRC40~46°
- The surface is mirror polished, chrome plated and rust-proof
- Configuration 6-32mm made of Oxford fabric, beautiful and durable

15pcs Combination Spanner Set

Item NO.	Size			RMB

CL402922	22mm	50	0.42	

- Cr-V forging and integral heat treatment
- The surface is treated with mirror chrome plating, beautiful and durable
- 25% longer than the average length of traditional spanner, more energy saving
- Used for automobile and machinery assembly and disassembly.
- Thin-walled sleeve and dual-use spanner make it easy to use

The Movable Double Head Socket Spanner

Item NO.	Size			RMB

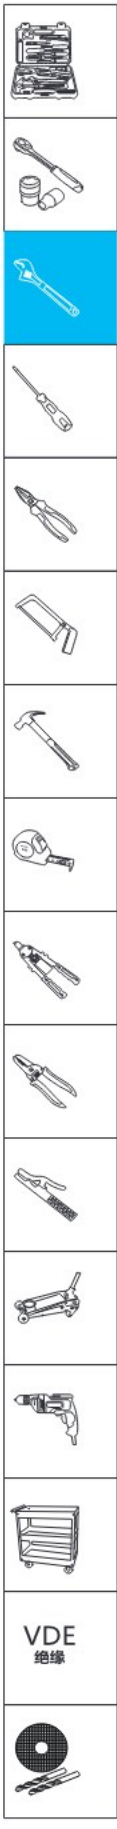
CL403011	18X19mm	80	0.39	
CL403012	20X22mm	40	0.54	

- Cr-V forging and integral heat treatment
- The surface is treated with mirror chrome plating, beautiful and durable
- 25% longer than the average length of traditional spanner, more energy saving
- Used for automobile and machinery assembly and disassembly
- Thin wall sleeve, easy to use

Universal Wrench

Item NO.	Size			RMB
CL404701	2PCS	6/36	0.62	

- Double head specification: 9~14, 15~22mm, single head specification: 23~32mm;
- Made of high quality alloy steel forged by integral heat treatment;
- Easy to use, save wrench space, two-color handle, comfortable to use.



Open-End Knock Wrench

- Meet CAMCAR original factory standard manufacturing requirements
- Made of high quality chromium-vanadium steel with integral heat treatment
- Used to remove and tighten TORX star bolts
- Chrome plated surface, beautiful and wear-resistant
- L type wrench is comfortable to hold and effective to prevent slip

G17 Type 9pcs Mat Finish Ball head Hex Key Set

Item NO.	Size			RMB
CL406502	medium	12 / 60	0.38	
CL406503	Lengthen	12 / 60	0.46	

- Made of 40Cr steel with integral heat treatment
- The tail ball head is designed for removing and fastening hexagon socket bolts
- Fine sand nickel surface treatment, beautiful and wear-resistant, spherical wrench can be used at a 25 degree tilt
- Configuration: 1.5 2 2.5 3 4 5 6 8 10

9pcs Mat Finish Star Type Hex Key Set

Item NO.	Size			RMB
CL402001	normal	10/50	0.29	
CL402002	medium	10/50	0.36	
CL402003	Lengthen	10/50	0.46	

- Meet CAMCAR original factory standard manufacturing requirements
- Made of high quality 6150 chrome-vanadium steel with integral heat treatment
- Used to remove and tighten TORX star bolts
- Fine sand nickel butyl surface treatment, beautiful and wear-resistant
- Configuration: T10 T15 T20 T25 T27 T30 T40 T45 T50

G17 Mat Finish Star Type Hex Key Set

Item NO.	Size			RMB
CL406512	medium	10/60		
CL406513	Lengthen	10/60		

- Made of 40Cr steel and subjected to overall heat treatment.
- Fine sand nickel surface treatment, beautiful and wear-resistant, with complete size and convenient use.
- Used for disassembling and tightening inner star bolts.
- Configuration: T10 T15 T20 T25 T27 T30 T40 T45 T50

9pcs Mirror Finish Ball Hex Key Set

Item NO.	Size			RMB
CL402101	normal	10/50	0.27	
CL402102	medium	10/50	0.39	
CL402103	Lengthen	10/50	0.45	

- Made of high quality 6150 chrome-vanadium steel with integral heat treatment
- Used to remove and tighten hexagon socket bolts
- Chrome plated surface, beautiful and wear-resistant
- The ball head can be used at a 25 degree tilt
- Configuration: 1.5 2 2.5 3 4 5 6 8 10

9pcs Mat Finish Ball Hex Key Set

Item NO.	Size			RMB
CL401901	normal	10/50		
CL401902	medium	10/50		
CL403801	medium (British system)	10/50		
CL401903	Lengthen	10/50	0.48	

- Made of high quality 6150 chrome-vanadium steel with integral heat treatment
- The tail ball head is designed for removing and fastening hexagon socket bolts
- Fine sand nickel surface treatment, beautiful and wear-resistant, spherical wrench can be used at a 25 degree tilt
- Configuration: 1.5 2 2.5 3 4 5 6 8 10

9pcs Mirror Finish Star Type Hex Key Set

Cr-V

Item NO.	Size			RMB
CL402013	Lengthen	10/60	0.45	

- Meet CAMCAR original factory standard manufacturing requirements
- Made of high quality 6150 chrome-vanadium steel with integral heat treatment
- Used to remove and tighten TORX star bolts
- Chrome plated surface, beautiful and wear-resistant
- Configuration: T10 T15 T20 T25 T27 T30 T40 T45 T50

9pcs Bronze Ball Hex Key Set

DIN S2

Item NO.	Size			RMB
CL402202	medium	10/50	0.40	
CL402203	Lengthen	10/50	0.49	

- Comply with DIN 2936 standard manufacturing requirements
- Made of S2 material with integral heat treatment
- The tail ball head is designed for removing and fastening hexagon socket bolts
- Bronze surface treatment, beautiful and wear-resistant, spherical wrench can be used at a 25 degree tilt
- Configuration: 1.5 2 2.5 3 4 5 6 8 10

13pcs Mat Finish Ball Hex Key Set

DIN Cr-V

Item NO.	Size			RMB
CL407013	13PCS	12/48	0.51	

- Made of 6150 chromium molybdenum steel with integral heat treatment
- The tail ball head is designed for removing and fastening hexagon socket bolts
- Fine sand nickel surface treatment, beautiful and wear-resistant, spherical wrench can be used at a 25 degree tilt
- Configuration: 1.27 1.5 2 2.5 3 4 4.5 5 5.5 6 7 8 11

8pcs Folding type Flat Type Hex Key Set

DIN Cr-V

Item NO.	Size			RMB
CL406701	8PCS	12/60	0.20	

- Made of 6150 chromium-vanadium steel with integral heat treatment
- Folding handle is comfortable to hold and effective to prevent slip
- Used to remove and tighten hexagon socket bolts
- Fine sand nickel butyl surface treatment, beautiful and wear-resistant
- Configuration: 1.5 2 2.5 3 4 5 6 8

9pcs Black Finish Flat Hex Key Set

DIN Cr-V

Item NO.	Size			RMB
CL402212	medium	10/50	0.37	

- Made of high quality chromium-vanadium steel with integral heat treatment
- Used to remove and tighten hexagon socket bolts
- Black surface treatment, beautiful and wear-resistant
- Configuration: 1.5 2 2.5 3 4 5 6 8 10

8pcs Folding type Star Type Hex Key Set

Item NO.	Size			RMB
CL406702	8PCS	12/60	0.19	

- Meet CAMCAR original factory standard manufacturing requirements
- Made of 6150 chromium-vanadium steel with integral heat treatment
- Used to remove and tighten TORX star bolts
- Fine sand nickel butyl surface treatment, beautiful and wear-resistant
- Folding handle is comfortable to hold and effective to prevent slip
- Configuration: T9 T10 T15 T20 T25 T27 T30 T40
